PROFESSIONAL SUMMARY

Architect and computational designer with 3+ years of experience delivering large-scale international projects across healthcare, diplomatic, governmental, office, cultural and mixed-use sectors, totaling over **300,000 m²** of built area. Experienced across the full project cycle, from concept design and parametric modelling (Rhinoceros 3D, Grasshopper) to construction documentation (Revit, AutoCAD).

Currently specializing in computational design, AI-assisted workflows, design automation and BIM integration through the Master in Advanced Computation for Architecture & Design (MaCAD) at IAAC, Barcelona — combining parametric thinking and data-driven workflows to design more intelligent, efficient and human-centered architecture.

WORK EXPERIENCE

Architectural Designer — NKY Architects & Engineers

Ankara, Türkiye | December 2023 – Present

- Delivered concept design, BIM modelling and construction documentation for 20+ national and international projects totaling 300,000+ m² across healthcare, diplomatic, governmental, office, cultural and mixed-use sectors.
- Produced full architectural drawing sets (floor plans, sections, elevations, ceiling and cladding plans, system and curtain-wall details) in Revit and AutoCAD, coordinating with structural, mechanical and electrical disciplines.
- Developed parametric design and BIM interoperability workflows between Rhinoceros/Grasshopper and Revit (Rhino.Inside.Revit), reducing remodelling effort in preliminary design stages.
- Contributed to two projects awarded International Property Awards (EPA) Rank 1.

Key projects (area / client / scope):

- Başkent Elektrik (BELK) Headquarters & Electric Distribution Center**, Ankara, Türkiye — 30,000 m²; Client: Başkent Elektrik Corporation. Concept, schematic design and design development documentation; 3D design alternatives, analytical diagrams, full drawing set. **International Property Awards – Rank 1.**
- Turkish Petroleum (TPAO) Şırnak Corporate Campus**, Şırnak, Türkiye — 80,000 m²; Client: Turkish Petroleum Corporation. Concept, schematic design and design development stages; 3D site model; plan layouts for guesthouse, staff housing and guard houses; structural, electrical and mechanical coordination.
- Chancery Building & Residence Complex**, Ankara, Türkiye — 5,000 m²; Client: diplomatic client (confidential). BIM modelling in Revit; analytical and presentation diagrams; complete architectural drawing set through design development.
- Office Headquarters (Central Bank)**, The Gambia — 40,000 m²; confidential governmental client. Concept design; 3D modelling using Rhinoceros and Grasshopper.
- Information Technology City Communication Tower**, Lahore, Pakistan — 26,500 m²; Client: Asian Consulting Engineers. Parametric tower design with Rhinoceros and Grasshopper; concept design and plan layouts.
- Üsküdar State Hospital**, İstanbul, Türkiye — 30,000 m²; governmental client. Concept design and construction documentation.
- New Hospital of San Benedetto del Tronto**, Italy — 25,000 m²; healthcare. Concept design.
- Ankara University State Hospital**, Ankara, Türkiye — 22,000 m²; governmental client. Concept-stage 3D modelling in Revit; analytical and presentation diagrams.
- The Gambia Ministry Buildings Complex**, Bakau, The Gambia — 20,000 m²; governmental complex. Parametric canopy design in Grasshopper; analytical and presentation diagrams.
- VR Krtsanisi Resort Residence**, Tbilisi, Georgia — 18,000 m²; Client: VR Holding. Concept, schematic design and design development documentation. **International Property Awards – Rank 1.**
- National Technology & Science Museum**, Haydarpaşa, İstanbul, Türkiye — 15,000 m²; governmental client. Concept design; 3D modelling in Rhinoceros and Grasshopper; architectural plan layouts.

- **Tokat Municipality Additional Service Building**, Tokat, Türkiye — 8,000 m²; Client: Tokat Municipality. Concept and preliminary design; full drawing set in AutoCAD.
- **Moldova Police Accommodation Center**, Moldova — 7,000 m²; UNOPS collaboration. Concept design, presentation and construction documentation.
- **Benghazi Waterfront "The Living Necklace"**, Benghazi, Libya — 5 km coastline; urban-scale waterfront regeneration connecting the city to the sea. Concept design.
- **Adaptive Reuse of Heritage Village (Kerkijahan)**, Azerbaijan — urban complex; diplomatic client. Concept-stage Revit modelling; presentation diagrams.
- **Animal Waste Treatment & Laboratory Campus** — concept design and BIM construction documentation in Revit.
- **Baku Cargo Terminal Building**, Baku, Azerbaijan — concept design, presentation and construction documentation.
- **Makhachkala Airport Facade**, Russia — concept facade design and presentation.
- **Umudlu Village**, Azerbaijan — concept design and presentation.
- **Lahore Eye Park**, Lahore, Pakistan — concept design and presentation.
- **University Mosque** — concept design.

Architectural Designer — Yazgan Design Architecture

Ankara, Türkiye | March 2023 – May 2023

- **Cotonou Arena**, Benin — facade design and visualization for international sports arena.
- **BMC Tank Production Facility**, Türkiye — concept design and visualization for industrial production campus.

EDUCATION

Master in Advanced Computation for Architecture & Design (MaCAD)

Institute for Advanced Architecture of Catalonia (IAAC) — Barcelona, Spain | October 2025 – July 2026

- Focus: parametric design (Rhino/Grasshopper), AI-assisted design workflows, machine learning for the built environment, data-driven design, BIM integration (Revit, Rhino.Inside.Revit), Python programming, design automation, cloud collaboration (Speckle, GraphQL).

Bachelor of Architecture

Middle East Technical University (METU) — Ankara, Türkiye | 2017 – 2022

- High Honor Student (Spring 2020–21, Fall 2021–22).

SKILLS

Computational Design: Parametric Modelling, Design Automation, Data-Driven Design, Machine Learning for AEC, AI-Assisted Design Workflows, Generative Design

BIM & Documentation: Revit, Rhino.Inside.Revit, BIM Coordination, Construction Documentation, Architectural Detailing, Multidisciplinary Coordination

Software: Rhinoceros 3D, Grasshopper, Revit, AutoCAD, Adobe Photoshop, Speckle, Visual Studio Code, Microsoft Office

Programming: Python, GraphQL, RhinoScript

CERTIFICATIONS & COURSES

- Design Computing: 3D Modeling in Rhinoceros with Python/RhinoScript — University of Michigan, 2022
- What Is Contemporary Art? — Museum of Modern Art (MoMA), 2023
- Recovering the Humankind's Past and Saving the Universal Heritage — Sapienza University of Rome, 2023

LANGUAGES

- Turkish — Native
- English — C1 (Proficient)
